

I have been "protected" do to the Indiana no-call list. It has worked just fine for me. I now get maybe 1 call a month instead of the normal 1-2 calls per evening (especially when I am eating dinner) like we used to get. Please do NOT get involved with anything that will supercede our current DNC in Indiana. I can't help but believe that if any other agency gets involved it will be a big mess with more paperwork, having to get on YOUR listing. The individual states should be quite capable of making their own laws and we do NOT need any additional government intervention (Check out the Constitution --- it's there). Again, Please do NOT get involved. Thank you, Tom Hoot (Indiana Resident)
